Sales by countries 2017

HARMET Group
Total sales: 72,6 MEUR

Turnover over past years and forecast (MEUR)

Pre-fabricated modules

We produce and provide **pre-fabricated modules**, whereby 90% of the entire building structure and interior is **built in a factory.**

Our pre-fabricated modules are delivered...

- with all doors and windows installed;
- with all interior finishing and most of the exterior finishing already done;
- with complete power, water and sewage systems;
- with all sanitary and bathroom appliances already fitted;
- with a pre-installed ventilation system;
- with pre-installed kitchen cabinets and appliances;
- as per the customer's request, we can also install all furnishings;
- all modules undergo quality control before leaving the factory.

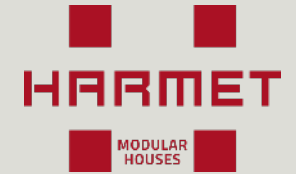

Module dimensions

For optimal transport solutions we produce modules with **width of 4,1 m, length 11 m and height of 3,0 m.**

Quality and warranty

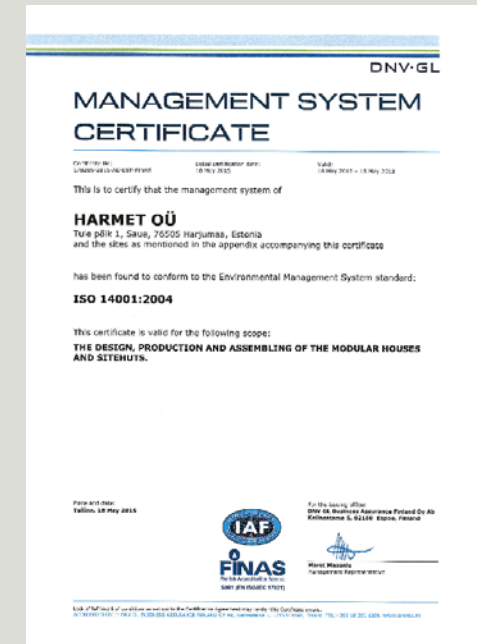

Our products feature **high-quality** construction that ensures a **long service life** and reduces future maintenance costs. Harmet's products come with a **5-year warranty**.

ETA Certificate, Quality and environmental management certificates

Already in March 2010, Harmet acquired pan-European **quality certificate ETA-10/0030** to design and construct up to **five floors** wooden houses.
